Boston Tuesday April 19th

Dear Deborah,

You will perhaps have seen by the papers that we have arrived, & I hasten to add, in good order & well conditioned. Henry feels better than when we left, & I see no reason why care & patience, & pure Sweet air, & home ever Winter, should not restore him. We were one month in going & coming, & one month in Haiti. We left Port au Prince too quickly to see much of the court there, — i.e. the government but I learned a good deal of the State of the country, which is at present very interesting in a political view. Dr Tolen's trip has come; very good. But how could it be otherwise? It was impossible to paint such a trip — as much so as to do it entire justice. This last, of course Mrs Tolen's relation to him hindered her doing quite as much as it helped. We found all well. With regards to all New Bedford friends, Ever yours

S. W. Pratman.

We had long letters from Dr. D. Mills. Of day from Dr. Anne Knight Before. Anne Knight & R.D. Mills & Sarah Collins Together all Dr. Peet about the Lib. Hall. Fair from the Lib. I added to it the Journals letters of Wendell Garrison & Parnell & Pennell (the latter Quaker) Quaker hung down on all sides, all Quakers it is Quaker fashion as well as the Quaker teachers.
